

Pulverized Coal Vibrating Screen

Product Overview

Pulverized Coal Vibrating Screen is special screen according to the particular demands of blast furnace coal injection system. It can prevent sawdust and fiber to enter the bunker, and ensure the pulverized coal can transport normally in pipeline.

Technical Specification

Specification Parameter	WZSM-50x140	WZSM-80x150	WZSM-90x200	WZSM-100x300
Capacity (t/h)	15	30	50	65
Aperture (mm)	3x3	5x5	5x5	5x5
Vibro-Motor Model	YZO-10-6	YZO-20-6	YZO-30-6	YZO-50-6
Power (kw)	0.75x2	2.0x2	2.5x2	3.7x2
Vibrate frequency (Hz)	16	16	16	16
Double Amplitude (mm)	5-7	5-7	5-7	5-7
Single Point Max Dynamic Load(N)	200	750	1000	1200
